

Heart of England Farms Ltd are a privately owned game farm who have traded in Warwickshire for over 30 years. As game breeders NOT dealers, we are able to keep total control and traceability over our stock and production. Chicks and poults are produced from our home-produced eggs so we are not reliant on imports. The following breeds are available from our over-wintered flocks.

### Old English Blackneck Pheasants

This large, powerful woodland bird has stood the test of time, having been in Britain since the early 1800s. Blacknecks are renowned as 'stayers' and anchor well to their home wood, tolerating more disturbance than others.

### Polish Pheasants

Originating in Poland where the strain is known as "bazanty" they are now well proven in the UK as the guns' favourite pheasant. Medium-sized, strong and hardy they stay at home well when released and add 'spark' on shoot days with their flying ability and willingness to flush.

### Kansas Thunder/Manchurian Cross Pheasants

The 'Kansas Thunder' is a small, flighty bird with upright posture more suited to low ground shoots with poor topography where it displays 'explosive flight'.

The Manchurian Cross are slightly larger but have retained many wild characteristics, being only a few generations on, from their wild forebears imported from truly wild eggs found in China.

### Redleg Partridges

Bred by ourselves in our pair units from a strain originating in Southern Europe. This strain is well proven as we receive many favourable comments from customers who are delighted with their returns.

### Grey Partridges

Produced from our own English birds.

### Mallard

Now produced from our own small breeder flock and grown on with access to water.

An order with us will give you:

- Healthy birds from a closed flock
- Selected genetic stock
- What you ordered
- Delivered on time
- Value for money
- and **Peace of mind**
